Mitochondrial
disease

Metabolic
disorder

Are you seeking to unravel the mysteries of complex diseases like cancer or cardiac disorders, mitochondrial disorders? Look no further! GTnRich Targeted Enrichment Panels offer a breakthrough approach, empowering researchers to delve deep into disease biology with unprecedented precision. Our GTnRich Targeted Enrichment panels are engineered to selectively amplify specific genomic regions of interest. Backed by extensive validation and testing, our panels consistently deliver reliable results in diverse research applications.

Here are some of the benefits of using GTnRich:

All GTnRICH purchase includes personalized Commander training led by our expert Genotypic team. Get hands-on guidance to master your panel and maximize your results. Elevate your research with GTnRICH - where expertise meets innovation!"
